

Greetings!

Luna II®

YOU ASKED, WE ANSWERED...

Introducing the new Luna II. Identical user interface menus and button functions to Luna, but in a smaller and lighter enclosure. One piece unibody construction means fewer parts and a drastically lighter device. Available in both CPAP and Auto-CPAP. 3B Medical also goes to the head of the pack with the most advanced cellular M2M communications technology in the industry. The Luna II incorporates 4G LTE Cat M1 and NB IoT, with network support on both Verizon and AT&T, increasing cell coverage to even difficult to reach geographical areas.

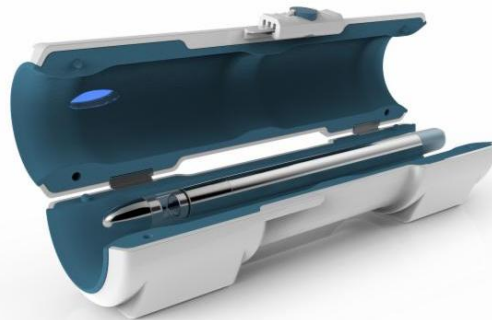

LG2000 - Luna II CPAP
LG2A00 - Luna II Auto CPAP

Want to save time and money?

Let iCode Connect's NEW feature MyPatient Watch do the work for you. This innovative new addition to 3B Medical's patient management system, iCodeConnect, allows clinicians to work smarter, not harder. Clinicians set filter criteria to alert them to the patients that need additional hand holding, before they become a compliance and reimbursement problem. Connects existing platform allows users to set rules and guidelines. Intuitive and easy to use interface brings power to the platform, along with a new look!

Lumin® Bullet

Increase your profit on 3B Medical's newest retail product, the Lumin Bullet. On display, Booth # 1405
