

3B Introduces New Internet Only CPAP Model

Luna® II QX

The Luna II QX is designed exclusively for internet resellers and is the lowest price, full featured, CPAP available.

AVAILABLE ONLINE ONLY

The QX comes standard with many of the features associated with higher end units.

- **Leak Reporting**
- **Advanced Algorithm**
- **Exhalation Relief**
- **CSA detection** (QX AutoCPAP)

Additionally, the QX model includes easy and effortless data reporting. Not only can patients use our smartphone apps with QR coding for the easiest sleep report generation available, but SD cards can be uploaded to our cloud based software with no desktop software installation.

Important Note; the QX model is not compatible with wireless transmission. WiFi and Cellular modules will not function on the QX models.

[QX Sales Sheet](#)

Extremely aggressive MAP pricing ranks both the CPAP and Auto-CPAP models as the lowest cost CPAP options available online.¹

**QX Minimum Advertised Pricing
(MAP)**

1. When configured with heated humidifier
